Praise the Lord, we are making progress!

The steel frame erectors have been busy installing the frame of the new church. It is such a joy to see, and we should be excited. We would encourage you to drive by the building site and take a peak. One word of caution, it is an active building site. If you are getting out and walking on the site it is not safe without supervision. Please check into the job trailer and with the building site manager, first, before you walk through.

To Our Church Family:

Roses are red, violets are blue, the love of a church family is God's blessing too. So much thanks are expressed for the cards and prayers while we traveled the cancer road recently. God has been so good in guiding appointments and surgery in such a prompt way. It can only be answered by the orchestration of our amazing God. In praise to Jesus and to you. Denny & Chanda
